Sport

Content and platform operations specialist with 6+ years across digital music and streaming ecosystems. Experienced in high-volume content delivery, catalog ingestion and metadata operations — keeping publishing workflows accurate, consistent and scalable. I work across product, licensing and engineering teams, with a focus on the process design and operational detail that keep large content pipelines running reliably.

PROFESSIONAL HISTORY

Content Operations & Publishing Workflows — Freelance

2025 - Present | Remote

- **Designed** content production and publishing workflows for content-driven businesses, improving consistency and turnaround across recurring output
- **Built** operational systems coordinating projects, tasks and content pipelines, giving teams clearer visibility and prioritisation
- **Documented** recurring content processes end to end, reducing manual effort and standardising how work moves from input to publication
- **Partnered** with clients to identify operational bottlenecks and translate them into scalable, repeatable workflows

Content Operations Manager — Deezer

September 2018 - Ongoing | Paris, France

- **Managed** high-volume content delivery operations across major labels (Universal, Sony, Warner) and independent distributors
- **Oversaw** catalog ingestion workflows, ensuring metadata accuracy, publishing consistency and delivery quality at scale (~30,000 releases/day)
- **Achieved** an 87/100 partner score card, recognised by Believe for delivery reliability and content operations performance
- **Collaborated** cross-functionally with Product, Licensing and Engineering teams to support platform content operations and release workflows
- **Improved** QA and operational processes, reducing delivery errors and ensuring metadata consistency across large-scale content pipelines
- **Partnered** with distributors to identify operational pain points and optimise content delivery workflows and publishing efficiency

Co-Organizer — Karaïb Festival (Side Project)

September 2017 - January 2023 | Paris, France

- **Negotiated** deals with artists and partners, securing high-profile performers and sponsorship deals
- **Coordinated** marketing operations related to advertising, resulting in an average daily attendance of 1,000 people
- **Oversaw** ticketing strategy and operations, ensuring seamless sales, tracking, and on-site access management
- **Managed** event organisation, overseeing all aspects of logistics, planning, and execution

Communication Consultant — Freelance

February 2018 - June 2018 | Paris, France

- **Supported** Product Development team for application launch

Copyright Internship — Sony/ATV Music Publishing

April 2017 - November 2017 | Paris, France

- **Monitored** and tracked copyright exploitation across multiple channels and territories
- **Analysed** royalty flows and ensured accurate rights management in internal systems
